

Downlight Multi 1

Model Number

LAMC1 B 220/240 L20 40K CR80 W SQ IWH WH NO NA

Ratings

Description

Part of a family of multiple downlights, the Multi 1 is a high-performance, square gimbal LED downlight. Fully adjustable and offering a range of outputs, the Multi 1 is an ideal replacement for metal halide. The luminaire offers a choice of beam angles (including an asymmetric distribution for wallwashing), colour rendering options, a trimless version and accessories.
